About us

Founded in 2000, City Car Club was the UK's first commercial car club, offering people the freedom of a car when they need one, without the hassle and expense of a car when they don't. We're now the most experienced car club in the UK, providing thousands of members with access to hundreds of cars and vans every day.

From humble beginnings, launching with just a handful of cars in Edinburgh, the club immediately gathered pace and has since grown at a phenomenal rate – prompting the launch of new operations in many key cities right across the UK.

City Car Club has been at the forefront of the car club industry, as more and more motorists discover the cost saving, convenience, and environmental benefits of membership.

Following a strategic acquisition of competitor car club WhizzGo in August 2009, City Car Club now has the UK's largest national network of car club vehicles spanning England, Scotland and Wales.

The only independently owned, British-based car club in the UK, we're passionate about providing residents and businesses with a viable alternative to private car ownership and continue to expand our network of cars and vans to meet the ever increasing demand for our service.

Our Head Office is located in Leeds which is home to our dedicated Clubhouse Team, and we also have offices across the UK where our regional club managers are based.

Key Benefits of City Car Club

Cost Saving

- Motorists can save up to £3,500 by joining City Car Club.
- Insurance, servicing, MOT, cleaning and parking permits are all taken care of by City Car Club.
- Members don't have to worry about losing money on depreciation.
- Members can drive from as little as £2.48 for half an hour.

The Environment

- Each City Car removes 24 privately owned cars off the roads.
- On average City Cars emit 37% less CO2 than those they replace.
- Surveys show that on joining the club members reduce their annual car mileage and make greater use of alternative forms of transport such as walking, cycling and public transport.
- City Car Club also works with businesses and local authorities to incorporate membership into their staff travel plans and reduce their CO2 footprint.

Convenience

- Each City Car and City Van lives in its own designated bay so members will always have a parking space available at the end of their journey.
- The cars and vans are available 24/7 and completely self-service.
- Members have a choice of car type depending on their particular journey requirements.
- No more time spent servicing and maintaining a car.
- Businesses with corporate membership no longer have to worry about the administrative hassles and risks of fleet management.
